SUB: - Consultation paper on "Definition of Adjusted Gross Revenue (AGR) in License Agreements for provision of Internet Services and minimum Presumptive AGR"

Kindly refer your consultation paper No. 19/ 2012 dated 28th Dec, 2012 on subject cited above. In this context the BSNL's point wise reply is as follows.

1. The current AGR definition is proper.
2. There should be no minimum presumptive AGR be applicable to BWA spectrum holders under internet service licenses.
3. The format of the statement of revenue and license fee is proper.

This is for your kind consideration pls.
