Regarding: Delay in removal of IUC

Respected Sir,

The TRAI has issued consultation paper of Review IUC which was decided to be abolished on 31.12.2019. But very sad to know that TRAI is not implementing the roll back decision on discontinuation of IUC.

We all were looking forward for roll back of IUC as it was a desired step to reduce the cost of the call.

Since starting we have been paying charges and we hope we as customers have already paid enough. Now the telecom industry is matured

and has substantial customer base contributing to their revenue hence further any unnecessary charges should be withdrawn to give relief to customers.

Yours Faithfully,
