

Dear Mr. Sharma,

Greetings from Bukhareez Corp.!

I hope this message finds you well.

We are pleased to inform you that since 2022, we have been deeply involved in the PM WANI initiative. Our team has conducted comprehensive ground-level research and engaged with numerous Public Data Offices (PDOs) to understand the challenges they face. Through this process, we've identified several critical issues that have hindered the success of many PDOs:

1. **Lack of Support from PDOAs:** PDOs often struggle to receive the necessary assistance from PDO Aggregators (PDOAs), which limits their effectiveness.
2. **High ISP Costs:** The cost provided by Internet Service Providers (ISPs) has been prohibitively expensive, making it difficult to offer PM WANI services at affordable prices.
3. **Device Integration Issues:** Compatibility issues with devices from different brands have created significant barriers.
4. **Limited Support from CDOT and App Providers:** Both CDOT and app providers have fallen short in providing the required support to PDOAs, further complicating the deployment process.
5. **Lack of Strategic Planning and Execution:** There has been a noticeable gap in the planning and execution phases, affecting the overall success of PM WANI.

In response to these challenges, we have decided to internally focus our efforts on addressing these issues. We have initiated our own research based on the current framework, and we are now in the development phase. Our goal is to create a streamlined solution that mitigates these challenges and supports PDOs more effectively.

One of our significant initiatives is the development of a unified mobile application that caters to all PDOAs and users. This will simplify the user experience by ensuring that a single app is available on the Play Store, making it easier for users to access PM WANI services.

We are confident that our efforts will contribute to the success of the PM WANI project and provide much-needed support to PDOs across the country.

Thank you for your attention, and we look forward to your continued support.

Best regards,
Mohammad Waseem Siddiqui
