Sub: Exemption of IUC charge

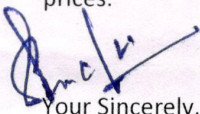

Sir,

I have come across news that telecom operators are going to increase tariffs further due to continuation of charging of IUC tariff by your office (which you had planned to abolish from 1st Jan 2020)

We have for years paid the telecom operators huge sums of money due to opaque tariff structures and only recently come to a stable tariff regime.

As a regulator, you need to protect the interest of consumers and not allow operators to loot consumers with high tariffs. You need to ensure the operators improve the network experience and not charge consumers despite poor data and voice experience.

I request you to please exempt the IUC charge and allow consumers not to get pinched with higher prices.

Your Sincerely,

7009040502
