Q1. Should provision of Regulation 15(1) be retained or should it be removed in the Interconnection Regulation 2017?

Comment:: Provision of Regulation 15(1) should be on elective basis, when dpo or broadcaster is not satisfied with monthly subscriber report provided, one can provide the 15(1).

Q2. Should small DPOs be exempted from causing audit of their systems every calendar year, under Regulation 15(1) of Interconnection Regulation?

Comment: Small DPOs can be exempted below 5000 subscriber universe, also they can go for 15(1) for every three year basis.
