**Subject:** Feedback on Consultation Paper on Assignment of Spectrum for Space-based Communication Services

Dear Sir,

This is with reference to the Consultation Paper on Assignment of Spectrum for Space-based Communication Services.

We have reviewed the paper and strongly recommend that spectrum for space based communication users should be allotted on payment of a license fee and should not be auctioned.

Best regards,

**Cdr Balgovind Kunhiraman**

Co-founder & Director (Commercial & Business Development)
